# TIPS Forum 2019: Innovation and Industrialisation

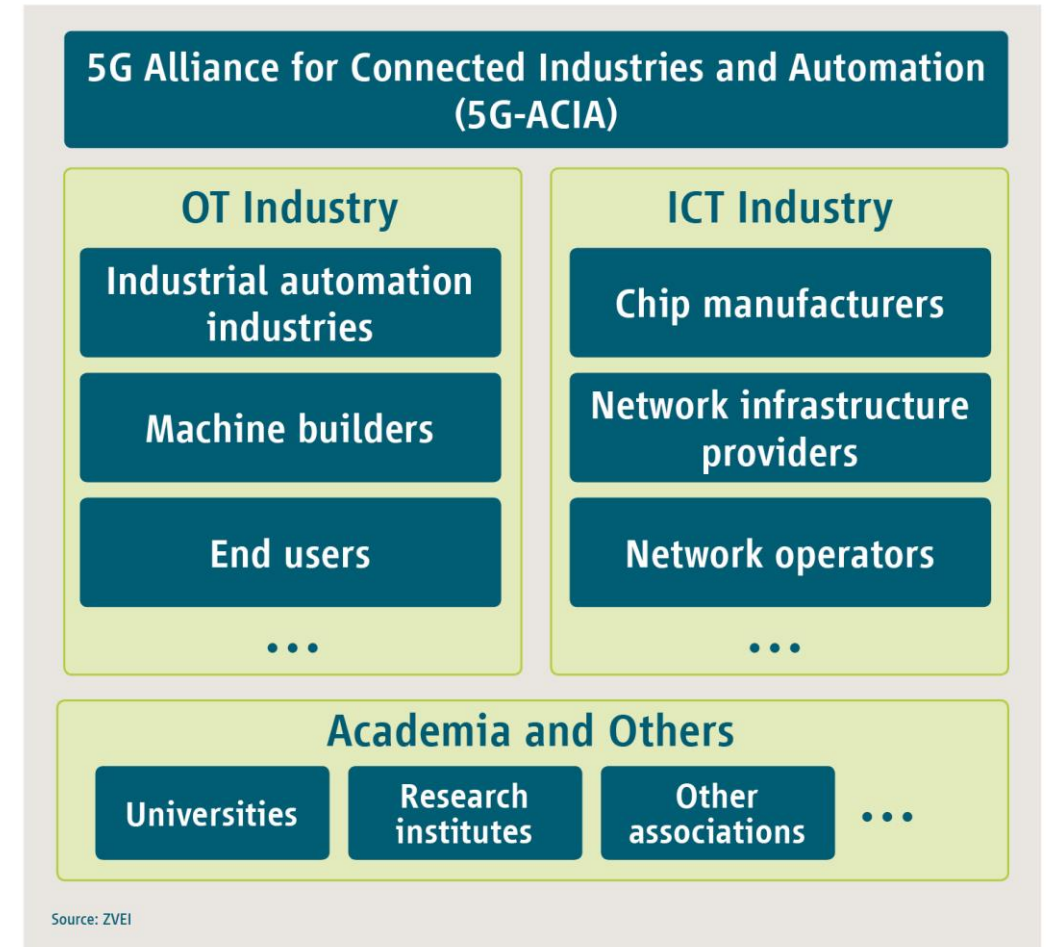

5G-ACIA: Working Group of ZVEI – Germany

## German Electrical and Electronic Manufacturers' Association

The ZVEI is one of the most important manufacturers' associations in Germany. It represents the interests of a high-tech branch with a widely varied and extremely dynamic product portfolio.

- Established to serve as the central and global forum for 5G in industry
- Addressing, discussing and evaluating relevant technical, regulatory and business aspects in respect of 5G in industry
- All relevant stakeholders take part in this initiative

## 5G-ACIA: Designing 5G for Industrial Use

- 5G allows machines to communicate with each other in real time, saving resources and energy through Edge Computing and Massive Machine Communication, and allows devices to work better with people. This 5G-ACIA animation shows a real life scenario.
